RESEARCH AND DEVELOPMENT OFFICE

COMPLIANCE REPORT

AREA V: RESEARCH AND DEVELOPMENT

RECOMMENDATIONS	ACTION/S TAKEN	SUPPORTING DOCUMENTS	PERCENTAGE OF COMPLIANCE
1. Individual and collaborative researches are still few.	Collaboration with the Industrial Technology Department, the Mathematics Department of CTU-Main, and other SUCs.	Dr. Benjie Ociones, Rose Ann Campita, Elmo Ranlo, and Dr. Ken Gorro published a research paper entitled "*A Hybrid Approach to Automatic Timetabling Using Self-Organizing Maps, Secure Convex Dominating Sets, and Metaheuristics*". Please Refer to Annex A Annex A	100%
2. Utilization of research outputs into instruction materials is not yet well established.	Faculty members will be trained on how to incorporate research findings into useful teaching materials, like modules, workbooks, lesson plans, and testing materials to close the gap between research and instruction. Additionally, instructors are encouraged to include research-based materials in the curriculum.	Faculty members have started incorporating research-based content in instructional materials and course syllabi. Please Refer to Annex B - E Annex B-E	100%
3. The Office of R and D of CTU Carmen does not have interior design.	The R&D office is now well-arranged and organized. Computer units and laptops were purchased to assist the R&D office in completing tasks for MFO3 targets at the university.	The R&D office was able to achieve 18 Scopus publications, which is 125% more	100%

		than the expected target of 8 papers. Please Refer to Annex F Annex F	
4. Bulletin of information on status Research is missing.	All research papers, both published and currently in progress, are printed and placed on the information bulletin.	The R&D office has established a monitoring protocol for all Scopus-indexed publication outputs and research project monitoring. Please Refer to Annex G-H Monitoring of Research Publications: Annex G GAA Research Project Monitoring: Annex H	100%
